

**INVITATION FOR BID
NETWORK BACKBONE AND WI-FI REFRESH COMPONENTS
ADDENDUM #1**

IFB No. S16-006

Addendum #: 1

Date : January 21, 2016

Please note the clarification and/or additional information for the solicitation referenced above.

PART II, #1.0

In response to a request to visit the location, the City will hold a NON-MANDATORY pre-bid walk-thru on:

**Wednesday 1/27/16 at 10:00 AM
Leander City Hall
200 W. Willis Street
Leander, TX 78641**

PART II, #1.4

The due date for the bid submission has been extended to:

EXTENDED DUE DATE February 4, 2016 3:00 PM CST

QUESTIONS AND ANSWERS

- 1. Q: Will any cabling installation be required indoors or outdoors?**

A: No. The City will provide cable installation.
- 2. Q: Are outdoor WAPs replacing existing units in desired existing locations? If they are new locations, will any cabling/conduit/mount points need to be installed? If so, will a man lift be required?**

A: New WAPs are required. No existing cabling, conduit or mount will be performed by the City. Installer will need ladders or man lift.
- 3. Q: What features are the city looking for so that I can ensure that an item can adequately be defined as an equivalent? The Meraki product specified (Items 1, 3, 4) have a unique feature set, and specifically in regards to the reporting and management features, it would be difficult to come up with an equivalent product?**

A: Per PART V, Response Requirements, #1.3, Alternate equivalent brands shall be noted if applicable with attached literature.

Alternate equivalent brand submissions will be evaluated by the City on a case by case basis. Not all items have to be bid.
- 4. Q: What is the number of Number of VLANs and their use (Management, City Hall, PD, VOIP, Public WIFI)?**

A: The City will perform this function.

5. **Q: What is the number of WIFI SSIDs and their use?**
- A: The quantity of the meraki's are the count and will be used for private and public access.
6. **Q: If there is going to be a public SSID, what kind of limits, such as time limits, will be placed on it?**
- A: This will be determined during configuration.
7. **Q: Could there be another option other than a one, two, or three day install?**
- A: No.
8. **Q: Is there enough room on the racks to allow for a side by side install of new and old equipment to allow for a quick transition?**
- A: City will mount the backbone.
9. **Q: How much down time is being allowed for while switches and access points are being installed?**
- A: City will install the switches.
10. **Q: Should all install time be planned for during after-hours?**
- A: No.
11. **Q: What are the features that drove the to specify the Catalyst product line over the Meraki product line of switches?**
- A: Cost comparison research.
12. **Q: Can the City provide current network maps and network documentation?**
- A: No.
13. **Q: Can the City provide current backup diagrams and backup documentation?**
- A: No.
14. **Q: Is CJIS compliance an important factor in network design?**
- A: Not applicable.
15. **Q: Does your PD have a TLETS connection to the Texas DPS?**
- A: Not applicable.
16. **Q: What CAD/RMS system do you use?**
- A: Not applicable.
17. **Q: Is PCI compliance an important factor in network design?**
- A: Not applicable.
18. **Q: What Hypervisor environment do you use?**
- A: Not applicable.
